

Using Technology in Classrooms استخدام التكنولوجيا في الصفوف

Young people love learning, but they like learning even more if they are presented with information in an interesting and challenging way. Today, I am going to give a talk about how you can use technology in Jordanian classrooms.

Here are some ideas: Many classrooms now use a whiteboard as a computer screen. As a consequence, teachers can show Websites on the board in front of the class. Teachers can then use the internet to show educational programs, play educational games, music, recordings of languages, and so on.

In some countries, tablet computers are available for students to use in class. Therefore, students can use the tablets to do tasks such as showing photographs, researching information, recording interviews and creating diagrams. Tablets are ideal for pair and group work.

Teachers can perhaps ask their students to start writing a blog (an online diary), either about their own lives or as if they were someone famous. They can also create a website for the classroom. Students can contribute to the website, so for example they can post work, photos and messages.

Most young people communicate through social media, by which they send each other photos and messages via the Internet. Some students like to send messages that are under 140 letters for anyone to read. Teachers can ask students to summarize information about

what they have learnt in class in the same way. If students learn to summarize quickly, they will be able to use this skill in future.

We all like to send emails, don't we? Email exchanges are very useful in the classroom. Teachers can ask students to email what they have learnt to students of a similar age at another school. They could even email students in another country. As a result, students can then share information and help each other with tasks.

Another way of communicating with other schools is through talking to people over the computer. Most computers have cameras, so you can also see the people you are talking to.

In this way, students who are studying English in Jordan can see what students in England are doing in the classroom while they are speaking to them. You can also use this system to invite guest speakers to give talks over a computer. For example, scientists or teachers from another country could give a lesson to the class. If you had this type of lesson, the students would be very excited.

Students often use computers at home if they have them. Students can use social media on their computers to help them with their studies, including asking other students to check and compare their work, asking questions or sharing ideas. The teacher must be part of the group, too, to monitor what is happening. Thank you for listening. Does anyone have any questions?

1. Some schools use a whiteboard as a computer screen in the classrooms. Mention the result of this use. **show Websites on the board in front of the class. Teachers can then use the internet to show educational programs, play educational games, music, recordings of languages**
2. Write down the way that makes young people like learning. **interesting and challenging**
3. Quote the sentence that shows that not all schools can use tablet computers.
In some countries, tablet computers are available for students to use in class.
4. Find a phrase in the text which means (A mobile computer with a touch screen processor and battery all in one unit). **tablet**
5. What does the underlined word refer to? **students**

6. According to the text, tablet computers are used in classrooms to do several tasks. Write down two of these tasks. **showing photographs, researching information, recording interviews and creating diagrams. Tablets are ideal for pair and group work**

7. Using the internet is beneficial in our daily life. Write down three possible advantages of using the internet. (students own answer)

8. Using technology in classrooms is an important way to make learning easier. Think of this statement and write down your point of view. (students own answer)

9. The writer states that the teacher must be part of the group to monitor his students. Explain this statement, giving three reasons for observing students (students own answer)

The Internet of Things **انترنت الاشياء**

Everyone knows that the internet connects people, but now it does more than that - it connects objects, too. These days, computers often communicate with each other, for example, your TV automatically downloads your favourite TV show, or your " sat- nav" system tells you where you are. This is known as the "Internet of Things" and there's a lot more to come.

In just a few years' time, experts say that billions of machines will be connected to each other and to the internet. As a consequence, computers will increasingly run our lives for us. For example, your fridge will know when you need more milk and add it to your online shopping list, your windows will close if it is likely to rain, your watch will record your heart rate and email your doctor and your sofa will tell you when you need to stand up and get some exercise!

Many people are excited about the "Internet of Things". For them, a dream is coming true. They say that our lives will be easier and more comfortable. However, others are not so sure. They want to keep control of their own lives and their own things. In addition, they wonder what would happen if criminals managed to access their passwords and security settings. The dream could be nightmare.

1. According to the text, the internet connects two aspects. Mention them.

connects people, connects objects

2. Many machines will be connected to each other and to the internet in the future. Write down the result for this connection. **computers will increasingly run our lives for us**

3. Quote the sentence that shows that many machines will be linked to each other in the future.

In just a few years' time, experts say that billions of machines will be connected to each other and to the internet

4. The text mentions many examples of the internet of things that will take place in our

daily life in the future. Mention two examples of them. **your fridge will know when you need more milk and add it to your online shopping list, your windows will close if it is likely to rain, your watch will record your heart rate and email your doctor and your sofa will tell you when you need to stand up and get some exercise!**

5. Find a phrase in the text which has the same meaning as "controls available on computer programs which let you protect your computer from viruses" security sitting
6. What does the underlined word it refer to? milk
7. Using the internet is beneficial in our daily life. Suggest three possible advantages of using the internet. (students own answer)
8. The role of the internet in education has become a major role, especially during Corona pandemic. Think of this statement and in two sentences write down your point of view. (students own answer)

Complementary Medicine *الطب البديل*

Most doctors used to be sceptical about the validity of homoeopathy, acupuncture and other forms Most doctors of complementary medicine. If patients wanted to receive this kind of non-conventional treatment, they used to have to consult a private practitioner who was likely not to have a medical degree. However, in recent years, the perception of this type of treatment has changed. These days, many family doctors study complementary medicine alongside conventional treatment, and many complementary medicine consultants also have medical degrees.

Whereas critics used to say that there was no scientific evidence that non-conventional treatments actually worked, now it is more common for medical experts to recognize that conventional medicine may not always be the only way to treat an ailment.

At a surgery in London , 70 per cent of patients who were offered the choice between a herbal or conventional medicine for common complaint such as insomnia , arthritis and migraines chose the herbal remedy . Fifty per cent of patients then said that the treatment helped . One doctor said “ I now consider homoeopathy to be viable option for many different conditions, including anxiety, depression and certain allergies. It provides another option when conventional medicine does not address the problem adequately.”

However, complementary medicine cannot be used for all medical treatments. It can never substitute for immunizations as it will not produce the antibodies needed to protect against childhood diseases . It also cannot be used to protect against malaria .

One doctor said “ I will always turn to conventional medical treatment first to ensure that no underlying condition is missed. Missed , the idea of complementary treatment is no longer an alien concept . In my opinion, it should work alongside modern medicine, and not against it.”

1. Mention two kinds = form = types of complementary medicine . **Acupuncture , homoeopathy**
2. Two evidences that the perception of this type of treatment (complementary medicine) has changed .

many family doctors study complementary medicine alongside conventional treatment, and many complementary medicine consultants also have medical degrees

3. Two kinds of doctors patients consult them receive complementary treatment .

complementary medicine consultants , private practitioner who was likely not to have a medical degree.

4. What are the critics opinions about complementary medicine in the past (used to) and in the present (now)? **there was no scientific evidence that non-conventional treatments actually worked, now it is more common for medical experts to recognize that conventional medicine may not always be the only way to treat an ailment.**

5. Why did medical experts change their opinion about complementary medicine ?

6. Two choices were offered to patients to be treated ? **herbal or conventional medicine for common complaint**

7. Mention three complaints = conditions = ailments are treated by complementary medicine ?

insomnia , arthritis and migraines

8. Why did doctors change their perception about complementary medicine after their research ?

recognize that conventional medicine may not always be the only way to treat an ailment.

9. Why cannot complementary medicine be used for all medical treatments ? Two reasons .

Will not produce the antibodies needed to protect against childhood diseases . It also cannot be used to protect against malaria .

10. Why cannot complementary medicine be used for immunization?

it will not produce the antibodies needed to protect against childhood diseases

11. Why should complementary medicine work alongside modern medicine, and not against it ?

1. **Complementary medicine will not produce the antibodies needed to protect against childhood diseases . It also cannot be used to protect against malaria .**

2. It provides another option when conventional medicine does not address the problem adequately.”

12. He who has health has hope; and he who has hope, has everything . Think of this statement and in two sentences write your point of view .(student own answer)

13. The article suggests that people's perception of complementary medicine has changed over time . Why do you think this is the case ? .(student own answer)

In the future في المستقبل

We will be able to have an operation to increase our intelligence.

Scientists have already developed brain implants that improve vision or allow disabled people to use their thoughts in order to control prosthetic limbs like arms, legs or hands, or operate a wheelchair. In 2012 CE, research on monkeys showed that a brain implants improved their decision-making abilities. How will humans benefit from this research? Scientists hope to develop a similar device to help people who have been affected by brain damage, which could be caused by dementia , a stroke or other brain injuries .

Doctors will be able to communicate with people in a coma

In 2010, neuroscientists confirmed that it was possible to communicate with some patients in a coma , by using a special brain scanner called an MRI . They suggested that, in the future, more meaningful dialogue with patients in a coma would be possible. Two years later, it has finally happened. The scanner, used on a man who has been in a coma for more than twelve years, proves that he has a conscious, thinking mind – a fact that had previously been disputed by many. Doctors plan to use similar brain-scanning techniques in the future to find out whether patients are in pain, or what they would like to be done in order to improve their quality of life.

A new drug will help to treat certain types of cancer almost instantly.

A new cancer drug is being trialed in Plymouth, UK, which doctors hope will extend the lives of cancer patients and reduce their symptoms overnight. It is taken as a single pill every morning ,and so far patients have shown none of usual side effects such as sickness and hair loss that are experienced when undergoing other forms of cancer treatment. The new treatment works by blocking a protein which causes cancerous cells to grow. It will improve patients' life expectancy and quality of life much more quickly than any other treatment. The patients were interviewed a year after starting the treatment and are fit and well, saying that they are definitely going to continue the trial. They have every reason to believe the new drug is going to work. Doctors at Plymouth Hospital hope that it will help patients from all over the world.

1. writer mentioned two sides effects of other treatments of cancer . write them down. **sickness and hair loss**
2. There are many reasons for a brain damage , write down two of these reasons **dementia , a stroke or other brain injuries**
3. Quote the sentence which shows the way in which doctors were able to contact people with a coma. **In 2010, neuroscientists confirmed that it was possible to communicate with some patients in a coma , by using a special brain scanner called an MRI**
4. The underlined pronoun “ they” refers to **patients**
5. Find a word in the text which means “ an unconscious state ? **coma**

6. Because of the health development , life expectancy has risen rapidly. Suggest three consequences if people live longer. (Students own answer)
7. It is said that we should be using technology to help us to improve life Expectancy . write your point of view in two sentences . (Students own answer)

Accident victim tests first artificial limb ضحية حادث يجرب الطرف الاصطناعي

Scientists have successfully invented a prosthetic hand with a sense of touch. It is an exciting new invention, which they plan to develop. It is possible that, in the not-too- distant future, similar artificial arms and legs will have taken the place of today's prosthetic limbs.

Dennis Sorensen, a 39-year-old from Denmark, was the first person to try out the new invention. After losing his left hand in an accident, he had been using a standard prosthetic hand for nine years. The new hand, which was developed by Swiss and Italian scientists, was a huge improvement.

With it, Sorensen could not only pick up and manipulate objects, but he could also feel them. 'When I held an object, I could feel if it was soft or hard, round or square,' he explained. He said that the sensations were almost the same as the ones he felt with his other hand.

Unfortunately, Sorensen was only taking part in trials, and the equipment is not ready for general use yet. He was only allowed to wear it for a month, for safety reasons. So now he has his old artificial hand back. However, he hopes that soon he will be wearing the new type of hand again.

1. There are two kinds of limbs that will replace today's limbs . Write them down ?
standard prosthetic hand
2. Sorensen wore the new hand only for a short period. Mention the reason for that.
Sorensen was only taking part in trials
3. The new hand differs from the old artificial hand. Mention the special characteristic of the new hand. he **could feel if the object was soft or hard, round or square**
4. Quote the sentence that indicates the hope of Dennis Sorensen. **However, he hopes that soon he will be wearing the new type of hand again**
5. Why does Dennis Sorensen need a prosthetic hand? **He lost his left hand in an accident**
6. Find a word in the text that is the opposite of natural. **artificial**
7. What does the underlined pronoun (it) in the text above refer to ? **the new prosthetic hand**
8. Suggest three things that the new hand will improve in someone's life. (**students own answer**)

The importance of Arab achievements أهمية الانجازات العربية

The Arab world has many famous chemists in its history, but the person who is known as the founder of chemistry is probably Jabir Ibn Hayyan. He is most well-known for the beginning of the production of sulphuric acid. He also built a set of scales which changed the way in which chemists weighed items in a laboratory.

Ali Ibn Nafi' is also known as 'Ziryab' (or 'Blackbird', because of his beautiful voice). He was a gifted pupil of a famous musician from Baghdad, and it was his talent for music that led him to Cordoba in the ninth century CE. He is the person who established the first music school in the world in Cordoba, Al-Andalus, teaching musical harmony and composition. He revolutionized musical theory, and is also the person who introduced the oud to Europe.

Al-Kindi was a physician, philosopher, mathematician, chemist, musician and astronomer - a true polymath. He made ground-breaking discoveries in many of these fields, but it is probably his work in arithmetic and geometry that has made him most famous.

1. Who is the founder of chemistry? **Jabir Ibn Hayyan**
2. Why is Ali ibn Nafi' also known as " Ziryab"? **because of his beautiful voice**
3. Find a word in the text that means (a room for scientific experiment). **laboratory**
4. What does the underlined pronoun (He) refer to? **Jabir Ibn Hayyan**
5. Ali Ibn Nafi' made some important achievements in music. Write down two of these achievements.

He revolutionized musical theory, and is also the person who introduced the oud to Europe.

He established the first music school

6. What has made Al-Kindi most famous? **his work in arithmetic and geometry that has made him**
7. Write down the sentence which indicates that Al-Kindi was a polymath.

Al-Kindi was a physician, philosopher, mathematician, chemist, musician and astronomer - a true polymath.

8. Why is Ibn Hayyan's set of scales significant? **He also built a set of scales which changed the way in which chemists weighed items in a laboratory**

Masdar city مدينة مصدر

Megaprojects are extremely large investment projects, which are designed to encourage economic growth and bring new benefits to cities. Although megaprojects vary in terms of size and cost, they are all, by definition, expensive, public projects that attract a high level of interest and media coverage. Projects range from motorways, airports, stations ,tunnels, bridges, etc. to entire city complexes.

The concept of a megaproject is always based on the benefits it brings to a community .However, many megaprojects have been criticized because of their negative effects on a community or the environment. This essay will look at these issues with regard to Masdar City, a megaproject in Abu Dhabi.

Masdar City, which began its development in 2006 CE, will be the world's first carbon-neutral, zero waste artificially-created city. Covering an area of six square kilometers ,when it is completed in 2025 CE, it is expected

to house more than 40,000 residents,50,000 commuters, and 1,500 businesses involved in mainly environmentally-friendly products.

The city will run entirely on renewable energy sources. It is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex. Furthermore, in order to reduce its carbon footprint, Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly. Electric, driverless cars will operate as public transport vehicles, and the city will be connected to other locations by a network of roads and railways.

Energy will be provided by solar power and wind farms, and there are also plans to build the world's largest hydrogen plant. A desalination plant will be used to provide the city's water, with 80% of water used being recycled. Biological waste will be used as an energy source too, and industrial waste will be recycled.

1. There are many examples of mega projects , write down two of them .
motorways, airports, stations ,tunnels, bridges, etc. to entire city complexes
2. Quote the sentence which shows the reason why people criticize mega projects ?
However, many megaprojects have been criticized because of their negative effects on a community or the environment
3. There are many procedures that can be done inside the city to reduce its carbon footprint , write down two of them. **Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly. Electric, driverless cars will operate as public transport vehicles, and the city will be connected to other locations by a network of roads and railways.**
4. There are many sources of energy that will be used inside the city , write down three of them.
solar power and wind farms
5. The underlined pronoun their refers to **megaprojects**
6. There are many disadvantages of creating cities like Masdar city. Suggest three of them (students own answer)

T Doaa' Abulhaijaa

Health in Jordan *الصحة في الأردن*

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centers have been built, as well as 188 dental clinics. In 2012 CE, 98 per cent of Jordanian children were fully immunized, thanks to immunization teams that had been working towards this goal for several years. Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 per cent of the country's population now has access.

Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients come to Jordan for open heart surgery. In Jordan, the open heart surgery programme started in 1970 CE in Amman.

The low infant mortality rate, as well as the excellent healthcare system, have been contributing factors to Jordan's healthy population growth, which will result in a strong work force with economic benefits for the whole country.

1. Mention two sectors that experienced improvements and made our country healthier.

. **economic , education**

2. Two primary facilities that are almost available to all Jordanian. What are they?

healthcare centers , dental clinics

3. According to the text, medical services are classified into two types. Write them down.

primary healthcare facilities advanced medical facilities

4. Quote the sentence which shows the reasons of increasing health services within a short time in the last few years.

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years

5. Find an expression which means "the system which supplies water and deal with human waste." **sanitation**
6. Find the phrasal verb which means "the prevention or treatment of illness by doctor." **healthcare**
7. What has led to Jordan's healthy population growth? Mention two factors.

the excellent healthcare system, have been contributing factors to Jordan's healthy population growth

8. What does the underlined word "This" refer to? **Health conditions in Jordan**
9. Suggest three possible reasons that make Jordan an attractive destination for patients from other countries. (students own answer)
10. Critical Thinking) : It is said that healthcare is important for all people. Think of this statement and, in two sentences, write down your point of view. (students own answer)

Space schools المدارس الفضائية

Studio schools are pioneering schools which receive funding as well as support from private businesses, and which seek to encourage young people to undertake a less conventional form of secondary education. These schools often specialize in one specific area, whilst understanding that the same broad range of skills and qualifications should be made available to all young people.

One such school has recently opened to educate fourteen- to eighteen-year-olds who have a special interest in working in the space industry. Students follow a tailor-made curriculum at the school, including subjects such as Astronomy and Astrophysics.

Lessons are a mixture of small-class tutorials, with projects supervised by leading companies in both the space and technology industries.

Prominent scientists and engineers are brought in as guest lecturers, with students aiming to achieve top grades in their math and Science exams. When they leave school, they will be well-placed to take any number of different career paths. They don't have to become astronauts!" says a spokesperson for the school. "Excellent grades in science and technology subjects can open many doors and lead to a variety of career opportunities.

1. Students in space schools can study many subjects. Mention two of them. **Astronomy and Astrophysics**
2. Studio schools have an aim that tends to achieve it. Mention this aim.

seek to encourage young people to undertake a less conventional form of secondary education

3. Write down the sentence which shows the age of students who attend studio schools.

One such school has recently opened to educate fourteen- to eighteen-year-olds who have a special interest in working in the space industry

4. According to the text, space schools provide students with special lessons. Describe these lessons. **a mixture of small-class tutorials, with projects**

5. What does the underlined pronoun (their) refer to ? students

6. Find a phrase in the text that means (made to fit exactly). tailor-made

7. Quote the sentence which indicates that studio school have only one specialization .

These schools often specialize in one specific area, whilst understanding that the same broad range of skills and qualifications should be made available to all young people.

7. What evidence is there in the text that studio school understand that all young people should be provided with the same opportunities , skills and qualification.

These schools often specialize in one specific area, whilst understanding that the same broad range of skills and qualifications should be made available to all young people.

9. There are two advantages (benefits , qualifications) , which the students of the space school have after leaving school in comparison with students who study in transitional school . Write down these two advantages.

they will be well-placed to take any number of different career paths

Excellent grades in science and technology subjects can open many doors and lead to a variety of career and opportunities

وكيف تراجع للامتحان. How to revise fo the exams.

A. Do you know if it`s too late to start revising now?

No, it`s never too late to start revising! The first thing I would do is to draw up a revision timetable.

B. Do you mind telling me how I should draw up a timetable?

Look at all the subjects you have to do, and work out when you are going to work on each one. It's a good idea to change the order of the subjects in your timetable for each day. Try doing a little English, followed by some Maths, then Biology, and so on. This way, by changing the focus of your revision, you keep your mind fresh

C. Do you know whether it`s best to get up early, or to revise late at night?

The earlier you start in the morning, the more beneficial your revision will be, because that's when you feel most awake and your memory is at its best. I'd also recommend studying for 30-minute periods, and then taking a break. It's been proved that concentration starts to decrease after half an hour, so frequent breaks will help the brain to recover and concentration to return

D. Could you explain what you mean by frequent breaks?

By a break, I mean any change of activity from studying. It could be something as simple as just getting up from your desk and listening to some music, or walking around for ten minutes.

E. Could you tell me how much exercise I need?

Physical activity is very important, of course, especially when you are studying. Exercise will make a huge difference to the way you feel. The physical activity will increase your heart rate and, in turn, that will increase your blood circulation. It also sends more oxygen to the brain, which makes you revise more efficiently!

1. There are two benefits of starting revision in the morning. Write them down.

The earlier you start in the morning, the more beneficial your revision will be, because that's when you feel most awake and your memory is at its best.

2. There are two main steps to draw up a revision time table . Write them down .

Look at all the subjects you have to do, and work out when you are going to work on each one. It's a good idea to change the order of the subjects in your timetable for each day.

3. Frequent breaks while revising can have many benefits. Write down two of these benefits.

frequent breaks will help the brain to recover and concentration to return

4. Quote the sentence which shows the first step you do when you start revision.

The first thing I would do is to draw up a revision timetable

4. What does the underlined word it refer to? The physical activity

6. Find a word from the text which means 'ability to remember things' memory

7. Quote the sentence which indicate that it is preferable to have a different order of the subject on the time table each day It's a good idea to change the order of the subjects in your timetable for each day.

9. What is the first step one should take to start revising for the exam ? draw up timetable

10. why do you think 30 minute period is recommended in the text ?

It's been proved that concentration starts to decrease after half an hour, so frequent breaks will help the brain to recover and concentration to return

Doing business in China القيام بالاعمال في الصين

Mr Ghanem: 'I've been doing business with China for many years. My first trip there was in 2004 CE, and it was not very successful.'

Interviewer: Did you make any mistakes on that visit?

Mr Ghanem: 'Yes! I wish I had researched Chinese culture before I visited the country. In order to be successful in China, you need to earn their respect. Chinese business people will always ask about a company's successes in the past. However, because I worked for a new company, I could not talk about its track record. We did not do any business deals on that first trip.'

Interviewer: When did you learn how to be successful in China?

Mr Ghanem: 'I joined a larger company and they sent me on a cultural awareness course. On my next visit to China, it felt as if I hadn't known anything on my first visit!'

Interviewer: What advice can you give to people wanting to do business in China?

Mr Ghanem: 'Before I visit a company, I send recommendations from previous clients. also send my business card with my job position and qualifications translated into Chinese.'

Interviewer: Can you tell us about your last meeting in China?

Mr Ghanem: 'Of course! I arrived on time. You must not arrive late, as this shows disrespect. Then, when I met the company director, I shook hands with him gently. I began the meeting by making small talk about my interesting experiences in China. During the meeting, I made sure that my voice and body language were calm and controlled. I never told a joke, as this may not be translated correctly or could cause offense.'

1. According to Mr Ghanem, why mustn't a businessman arrive late to a meeting in China? as this shows disrespect.

2. Mr Ghanem avoided telling jokes during his last meeting in China for two reasons. Write down these two reasons.
as this may not be translated correctly or could cause offense."

3. Quote the sentence which shows Mr. Ghanem's regret for not researching Chinese culture before visiting China.

I wish I had researched Chinese culture before I visited the country.

4. Two procedures are regularly followed by Mr. Ghanem before visiting a company in China. Write them down.

He sends recommendations from previous clients. also sends his business card with his job position and qualifications translated into Chinese.

5. What does the underlined pronoun (its) refer to? Track record

6. Find a phrase in the text that means (to say something to make people laugh).

7. one need certain skills in order to be successful. Suggest three skills that can make successful business person .(**students own answer**)

8. " knowing about cultures is important in doing successful business today " Think of this statement and in two sentences write your point of view . (**students own answer**)

My Job as Interpreter مهنتی کترجمه

My name is Fatima Musa and I have worked as an interpreter for five years. Many students have emailed me about my work because they want to know what it would be like to do my job. So here is my reply.

I have always been fond of languages. My father worked in many different countries when I was young we usually traveled with him. When we visited a country, I always wanted to learn the language. At school I was very good at English. Therefore, I decided on a career as an interpreter.

Is it an easy job? Not at all. English is not the same in all English-speaking countries. For example, the English words that are used in India are sometimes different to the words the people use in the UK, the USA or Australia. As well as knowing regional English, you also need to know a lot of specialist language. Some of the words that are used to talk about business, science or law, for example, make it almost a different language!

Unless you have a language degree, you will not be able to become an interpreter.

Provided that you have a postgraduate qualification; you will probably get a job as an interpreter quite quickly. If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time. If you are successful, it is a secure and rewarding job.

1. There are many factors that encouraged Fatima to be an interpreter. Mention three factors.

her father worked in many different countries when she was young we usually traveled with him. When they visited a country, she always wanted to learn the language. At school she was very good at English.

2. According to Fatima, working as an interpreter is not an easy job for two reasons. Write them down.

1. English is not the same in all English-speaking countries. For example, the English words that are used in India are sometimes different to the words the people use in the UK, the USA or Australia.

2. you

also need to know a lot of specialist language. Some of the words that are used to talk about business, science or law, for example, make it almost a different language!

3. Quote the sentence that indicates that having a language certificate is important and a prerequisite to become an interpreter.” **Unless you have a language degree, you will not be able to become an interpreter.**”

4. Find a word in the text that means (giving personal satisfaction). Rewarding

5. What does the underlined word (it) refer to? Job (**interpreter**)

6. If you get an interview for a job as an interpreter, you need to show many skills. Write two of them down. **you will need to show that you**

have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time

7. It is difficult for many young people these days to find a rewarding and secure job.

Think of this statement and in two sentences, write down your point of view. **.(students own answer)**

8. Speaking many languages fluently is a very beneficial skill these days. Suggest three possible benefits for this skill.(students own answer)

Literature

The Green Corn Field

1. Who is the author? cristtina rossoti
2. Find a name of an insect? butterflies
3. Is speck something big or small ? small
4. What does the word two in the third line refer to ? sky / earth
